

ACT!™ Integration for Laserfiche®

Cities Digital's ACT!™ Integration offers the ability to link contact information from ACT!™ and ACT!™ for Advisors with corresponding Laserfiche® documentation. This integration also allows for drag and drop capability for documents within the ACT!™ Interface. Users have the ability to scan or import documents, briefcases, or stored folder structures.

- Users can view documents stored in Laserfiche® from the contact window in ACT!™
- Integration supports drag/drop of documents, scan, import and importation of briefcases, or stored folder structures.
- Allows for synchronization of documents with Laserfiche® from ACT!™ interface.

Integration offers the ability to link contact information from ACT!™ Software with corresponding Laserfiche® documentation. This integration makes it easy to view and organize corresponding documents with drag and drop capability right within the ACT!™ interface.

Briefcases or created folder structures can also be imported into Laserfiche® through the ACT! interface, as well as the ability to scan in or import documents. The ACT!™ integration works with ACT!™ or ACT!™ for Advisors version 8.0.2 or higher. Contact sales@citiesdigital.com or call **855-714-2800 x2** for more information about Cities Digital's ACT!™ Integration for Laserfiche®.
