

Forms Payment for Laserfiche® Forms

Cities Digital's Forms Payment integration for Laserfiche® allows users to link credit card payments to their Laserfiche® Forms through the use of Authorize.Net. The integration creates a seamless way for organizations to collect payments via a website or public portal with the use of Laserfiche® Forms. Configuring the payment endpoint is done in four easy steps requiring little technical expertise.

The greatest benefit of the Forms Payment integration is that no credit card data is stored locally. All of the customers' sensitive payment information is tokenized and not stored. This simplifies compliance of The Payment Card Industry Data Security Standard (PCD DSS) and ensures companies maintain a secure environment. The integration also supports Direct Deposit and Direct Payment via the ACH Network, including credit and debit transactions. Features of the integration include:

- **Accepts major credit cards such as Visa, MasterCard American Express and Discover.**
- **Multiple payment endpoints can be configured to allow payments to multiple merchants.**
- **The ability to process payments through Laserfiche® Forms without the use of third party software.**
- **The ability to customize the appearance of the Payment Endpoint Form to match an organizations existing website.**

The screenshot shows a payment form with the following sections:

- Location:** Fields for City (Somewhere), State (US), Postal / Zip Code (00000), and Country (USA).
- Licenses:** A table with columns for Dog's Name, Sex, Age, and Breed. It lists 'Dog 1' (Male, Age 5) and 'Dog 2' (Female, Age 4), both with 'Dog' as the breed. An 'Add' button is below.
- Payment Information:** Amount Due field set to \$10.
- Agreement:** A yellow banner with the text 'I agree to pay the amount displayed above. This is my electronic signature. Other legal payment agreement information.' and a checked 'I Agree' checkbox.
- Payment Method:** Radio buttons for 'Credit / Debit Card' (selected) and 'Bank Account (USA only)'. Below are fields for Card Number and Expiration Date, with logos for VISA, MasterCard, American Express, and Discover.
- Authorization Code:** A field for the authorization code.
- Submit:** A 'Submit' button at the bottom.

Laserfiche® Forms can be configured with the use of CSS and JavaScript allowing users to customize the appearance and style of their forms elements to the exact specifications needed.
